# CHI AUXILIARY PROJECT

## TRANSCRIPTION AND TRANSLATION OF C. F. W. WALTHER SERMONS

The officers of the Auxiliary of Concordia Historical Institute are in favor of adopting an ongoing project to transcribe and translate the hundreds of sermons of C. F. W. Walther from his handwritten manuscripts in the CHI collection.

Although many of Walther's sermons were transcribed and published in German, many continue to be only accessible from Walther's own handwritten manuscripts. For every \$350 raised for this project CHI is able to transcribe and translate a sermon, making it available to the English-speaking church and community.

With your generous contribution to this project, these sermons will be available to students of Lutheran history. (An acknowledgment of the donors will be a part of the permanent catalog for those who contribute \$350 or more for this project.)

*Please prayerfully consider supporting this important work.*
